15		55756	55756	55756	73036	76593	80957

The above is the current salary scale for Saskatchewan teachers.

Class IV is the represents a teacher with four years of related university preparation, typically a B.Ed., which is the normal minimum qualification in Saskatchewan. It is also the most populous class, comprising 6,949 full- and part-time teachers.

Another 4,826 full- and part-time teachers are in Class V and Class VI combined.

Classes I, II and III approximate one, two or three years of formal preparation, and essentially form a collapsed class as they are paid on the same steps. Only under exceptional circumstances would an individual be placed in Class I or Class II, and very occasionally a vocational teacher is placed on Class III. Currently there are 116 teachers in these three classes, 72 of whom are at Step 15.
